

schoolmoney

Friday 22nd October 2021

Dear Parents,

School Money – Going Live Monday 1st November 2021

Hopefully you have now downloaded the 'Teachers2Parents' App and can see your children's names active within EduSpot.

Yesterday we activated the relevant items you may need to pay for, within **SchoolMoney** for the month beginning 1st November 2021.

You will now be able to credit your accounts using your credit/debit card so that there will be sufficient funds for your child/children returning to school on Monday 1st November.

Please note that as our Dinner and Milk money goes directly to EA Southern Region Accounts, there will be a separate account for this money (within the Dinners Tab).

All other payments will be credited to a separate pot for transfer to a separate bank account.

Payments will be monitored daily in the School office and you will be notified of any underpayments on your account via the EduSpot texting service. This gives you the opportunity to top-up your account at your earliest convenience with the touch of a button.

We appreciate there may be teething problems with getting used to our new system, but appreciate your co-operation and patience in becoming accustomed to our new cashless school.

If you are experiencing problems, please feel free to contact school after 10.30am any day and we will do our very best to assist you.

Kind Regards

Mr Scullion
